

Technical Specifications

Operating temperature	-25 - +55 °C
Storage Temperature	-30 - +70 °C
Ingress Protection (IP)	IP66
Physical Dimensions	406x280x80mm (16,0x11,02x3,15 inch)
Weight	Approx. 4 kg (8,82 lbs) Depending on configuration
Display	1024x768 Impact Breakage resistant Daylight Viewable PCAP multi-touch, Usable with thin gloves
Operator Feedback	Vibration and audio
Sensors	Accelerometers and gyroscope to detect tilting, free fall and shock. Light sensor to adjust screen brightness.
Operating System	Linux Yocto
Software platform	QT 5.7 A standard Vision Link API available for easy development of user apps.
Radio link	Vision Link – Proprietary redundant radio link consisting of: Highly reliable 434MHz or 868MHz and WiFi supporting 802.11n (2.4GHz/5.8GHz)
Battery	Lithium Ion 7.5V 6400 mAh 48Wh Up to 6 hours battery life Easily swappable. Charged in docking station, via cable or in charger
Camera (option)	1280x720@30Hz
