The VX-100 Battery Charger Dual is designed for simultaneously charging one or two intrinsically safe batteries for the VX-100 RU.

The VX-100 Battery Charger Dual is intended for use in a non-hazardous area.

Technical Specifications	
Operating temperature	0 - +40°C
Storage temperature	-30 - +70°C
Charging temperature	0 - +40°C
Approvals	CE. Listed in ATEX and IECEx certificates as accessory for the VX-100 system
Supply	100-240VAC/50-60Hz
Power consumption	60W max
Output Voltage	8.7VDC
Charging time	0-90% - Approx. 3,5 hours
	90-100% - Approx. 1 hours
	0-100% - Approx. 4,5 hours
Status LEDs	Power OK – Power supply OK
	Power LOW – Input power to low
	Charging – Bright light when bulk charging. Dimmed light when C/10 charging
Ingress Protection (IP)	IP20
Dimensions	250x140x210mm
Weight	Approx. 1,2kg
Part number	VR-EXPR0008
